

### Applying the Word to life

- What might we learn from the attitudes and actions of the early church that we should incorporate into our own life? How might their example affect how you get involved in church?
- Are these things listed in Acts 2:42-47 something we should aspire to today? (Why or why not?)
- How did the early Christians contribute to the cause of Christ? How are you contributing to the cause of Christ?
- According to Acts 2:41 and 47, how is a person “added” the church? What role do we have in the process?
- Would you like to be part of the church described in this passage? Why or why not?
